EXAMINER'S ACTION

Art Unit: 2308

1. The drawings are objected to because the labels in figures 1, 2a-2d and 3 are not clear, delete "Figure 1" and insert -- Fig. 1 -- and figures 2a-2d and 3-7, "Fig" should be "Fig.". Correction is required.

2. Claims 1-23 are rejected under 35 U.S.C. § 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

As per claim 1, line 6, there is no antecedent basis for "the voltage supplied to the rest of said system". Line 6, the phrase "the voltage supplied" is vague because the voltage is not supplied in the past. Line 6, the phrase "the rest of the system" has no antecedent basis and is general and not defined.

As per claim 1, lines 14 and 15 and claim 23, lines 16 and 17, the phrase "exchange memory information with said memory integrated circuit" is vague since the memory information are in the memory integrated circuit as shown above.

As per claim 14, lines 2 and 3, the phrase "a pulse width modulator circuit responsive to said logic control means" fails to recite the relation between the pulse width modulator circuit and the logic control means.

As per claim 16, lines 3 and 4, the phrase "generating a variable voltage in response to said filtered pulse width

modulated signal" fails to recite the relation between the generated variable voltage and the filtered pulse width modulated signal.

Claim 21 is vague since the first, second and third operations are not specified.

As per claim 22, lines 4 and 5, there is no antecedent basis for "voltage requirements".

As per claim 23, line 3, "providing" should read "supplying" because supplying is the actual function being performed.

Line 6, after "memory" insert -- integrated --.

Line 8, "provided" should read "supplied".

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. § 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --
(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 21 and 22 are rejected under 35 U.S.C. § 102(b) as being anticipated by Smith et al, U.S. Pat. No. 5167024.

As best as the examiner can determine due to the indefinite nature of claims 21 and 22, the claimed invention is taught by Smith's reference.

4. Claims 1-20 and 23 would be allowable if rewritten to overcome the rejection under 35 U.S.C. § 112.

5. Applicant's arguments with respect to claims 1-23 have been considered but are deemed to be moot in view of the new grounds of rejection.

6. Applicant's amendment necessitated the new grounds of rejection. Accordingly, THIS ACTION IS MADE FINAL. See M.P.E.P. § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 C.F.R. § 1.136(a).

A SHORTENED STATUTORY PERIOD FOR RESPONSE TO THIS FINAL ACTION IS SET TO EXPIRE THREE MONTHS FROM THE DATE OF THIS ACTION. IN THE EVENT A FIRST RESPONSE IS FILED WITHIN TWO MONTHS OF THE MAILING DATE OF THIS FINAL ACTION AND THE ADVISORY ACTION IS NOT MAILED UNTIL AFTER THE END OF THE THREE-MONTH SHORTENED STATUTORY PERIOD, THEN THE SHORTENED STATUTORY PERIOD WILL EXPIRE ON THE DATE THE ADVISORY ACTION IS MAILED, AND ANY EXTENSION FEE PURSUANT TO 37 C.F.R. § 1.136(a) WILL BE CALCULATED FROM THE MAILING DATE OF THE ADVISORY ACTION. IN NO EVENT WILL THE STATUTORY PERIOD FOR RESPONSE EXPIRE LATER THAN SIX MONTHS FROM THE DATE OF THIS FINAL ACTION.

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to George Davis whose telephone number is (703) 305-9640.

Any inquiry of a general nature or relating to the status of this application should be directed to the Group receptionist whose telephone number is (703) 305-9605.
